

**To: Southern Colorado Building Department**

My Company Name is \_\_\_\_\_.

Please add specialty license "D" for excavation to my existing plumbing license per the letter from Southern Colorado Building Department (SoCoBD) below.

I wish to add this license to my current license # \_\_\_\_\_.

I understand there is a \$130.00 fee for the additional license that will need to be renewed and paid for annually. Please file this letter with my license.

License holder or approved signee. \_\_\_\_\_

To Whom it may Concern:

Due to the City of Pueblo's Public Works Department, which required that any digging in the right of way must have an excavation license, any licensed company that has a Colorado State Plumbing License will automatically be granted an excavation license with SoCoBD without requiring the application paperwork or fee. This will also apply to licensed Utility Contractor
