STATIONARY ENGINEERS

- (a) It shall be unlawful for any person to have charge of, or operate, any steam boiler or steam engine, either stationary or portable, except as automatically fired low pressure hot water and low pressure steam boiler installed under provisions of this code with the City without first having obtained the appropriate license from Southern Colorado Building Department for any owner or used to place any person in charge of a steam boiler or steam engine, either stationary or portable, unless such person placed in charge is a duly licensed stationary engineer. Engineers and boiler tenders operating locomotives under the Interstate Commerce commission of Surface Transportation Board regulations shall be exempt from the requirements of this Section.
- (b) For purposed of the Section, a low pressure hot water and low pressure steam boiler furnishing hot water at temperatures not exceeding 250F°, or steam at pressures not more than 15 pounds per square inch.
- (c) To provide for the regulations and registration of stationary engineers, such engineers shall be divided into classes as follows:
 - (1) Class A – Chief Engineer’s License

Applications for class A license shall have the ability to supervise the operation, installation and maintenance of any plant in the City and must have not less than five (5) years practical experience in the operation and supervision of such plants, boilers, compressors and other apparatus.

- (2) Class B – Operation Engineers Licenses shall authorize the holder to operate high pressure boilers without machinery, except the pumps necessary to feed the boilers and the necessary attached equipment.

Applicants for the Class C license shall have at least two (2) years of practical experience in the operation of such boilers.

- (d) Any license issued under this Code may be suspended or revoked by the Southern Colorado Building Department for failure of the license to properly operate any boiler in accordance with industry standards, or for carrying higher steam or other pressure than allowed by law, or other neglect or incapacitated.
